EDUCATION

Northeastern University

Bachelor's of Science in Computer Science, Concentration in Software

Boston, MA

Sep. 2021 – May 2025

EXPERIENCE

Software Engineering Co-op

MasterControl

July 2024 – December 2024

Salt Lake City, UT (Hybrid)

- Engineered an automated integration promotion and scheduling process in Java via an AWS EventBridge Schedule that triggered an AWS Lambda, collecting metrics in Domo and saving five hours of developer time weekly.
- Extended platform REST API to allow for necessary migrations to be run only on the first execution of an integration version, removing the need to redeploy code after a migration is completed.
- Developed integrations using JavaScript and an internal integration toolkit for specific customers and general usage.
- Added modules to the internal integration toolkit allowing for use of OPCUA and Excel functionality in integrations.

Software Engineering Co-op

eMoney Advisor

July 2023 – December 2023

Radnor, PA (Remote)

- Developed and tested C# code to extract comprehensive financial data from bank accounts including balances, transactions, and investments for clients across various financial institutions.
- Analyzed web trace attributes (HTML, JavaScript, JSON, and headers) using Fiddler to determine bug root causes.
- Resolved tickets related to multifactor authentication, missing headers and cookies for page navigation, and general financial institution webpage modifications that required new parser logic.
- Produced SQL scripts to manipulate the database's existing transactions when necessary, referencing Jenkins builds and Octopus deployments to ensure accurate outcomes.

Executive Board Member – Mentor Director

Northeastern University Oasis

May 2024 – May 2025

Boston, MA

- Directed recruitment, interviews, and daily oversight of Oasis mentors to ensure a seamless experience for club members developing their first ever web projects.

Mentor

September 2023 – May 2025

- Provided individual guidance and feedback during weekly club meetings to twelve club members on their web development projects, teaching them the basics of React and databases.

Executive Board Member – Resources Director

December 2023 – May 2024

- Expanded club resources as part of Khoury College's goal to provide students with out-of-classroom learning materials.

Student Curriculum Innovation Developer

Khoury College of Computer Sciences, Northeastern University

December 2023 – May 2024

Boston, MA

- Created modules consisting of 60 to 90 minutes of digestible, in-depth content related to various Computer Science disciplines to provide students with an expansive hub for self-directed learning under Dr. Mark Fontenot.

Teaching Assistant – Fundamentals of Computer Science I & II

May 2022 – May 2023

- Reinforced students' knowledge of writing and debugging programs in Java and Racket during 4+ office hours weekly.
- Graded an average of 20 assignments, exams, and labs each week, based on style, functionality, and efficiency.

TECHNICAL SKILLS

Front-End: JavaScript, TypeScript, React, Angular, HTML, Bootstrap, CSS

Back-End: Java, C#, MySQL, Python, AWS, Mongo, Docker, Spring Boot, Node.js, Express.js

Other: Object Oriented Programming, Web Development, Algorithms, Linux, System Verilog, Git, C, Domo, Grafana

PROJECTS

Personal Website | *Angular, Bootstrap*

December 2023 – Present

- Self-taught the basics of Angular, such as Routing, and Structural Directives to display resume and project information.

ConnectNEU | *React, Bootstrap, Mongo, Node.js, Express.js*

March 2024 – April 2024

- Constructed a web application designed for Northeastern students to review companies and mentor others.
